ROOSEVELT REPLIES TO **WICKERSHAM'S FIGURES**

"Mere Succession of Lawsuits" Cannot Settle Trust Problem.

Says He Accomplished a Great Deal, Wickersham Less Than Nothing.

Oyster Bay, Aug. 19.—Attorney-General Wickersham and his methods of dealing with the trusts were held up to ridicule to-night by Col. Roosevelt by way of replying to the statement prepared for The Sun by the Attorney-General. The Progressive leader declared that Mr. Wickersham was aware of the specific trust of the statement of the specific trust of the statement prepared to take up with Mr. Hilles. Indications are that before many days have passed the Republican Congressional committee of which Representative Cooper, Wisconsin; Norris, Nebraska, and Lindbergh, Minnesota, made it plain to-day that they had no business in hand they desired to take up with Mr. Hilles. The Attorney-General in his statement made a striking comparison between the number of trust prosecutions begun and lconcluded during ex-President Roosevelt's tenure of office and the very much larger number of such cases which are to be credited to the Taft Administration. "The more suits against the trusts are brought to a conclusion the way Mr. Wickersham brought the Standard Oil and Tobacco Trust cases the better it will be for the trusts, he declared to-night.

"If Mr. Wickersham will conduct to a similar conclusion a few more suits of the same kind," the Colonel added with emphasis, "he will confer benefits upon the trusts such as all of them put together cannot confer on themselves. The worst blow the anti-trust law has ever received has been given by the decisions rendered under Mr. Wickersham's guidance in the closing action taken against the Standard Oil and the Tobacco trusts. And any man who defends those decisions or who, having those decisions in view, justifies the present position in connection with the trusts or thinks its atisfactory, is not warranted in receiving any further attributes.

"Nonsense," he responded, with heat. "We broke up the railroad combination in the Northern Securities case. There is no parallel here and Mr. Wickersham knows that perfectly."

He asserted that the policy followed by Mr. Wickersham in the trustcases was one of "make believe strangling" and preposterous from every standpoint. The only more absurd method of tackling the problem was, he said, that put forward by the Stanley committee.

the Taft-Roosevelt controversy has spli them into factions. The Taft supporters and the third party adherents are almost to a man very desirous of overturning the present Democratic administration

which has been seated now two years. Had not the trouble over the Repub lican Presidential nomination arisen it is gene ally conceded that it would have been an easy matter for the Republicans to have returned to power. The State is strongly Republican and the policy of protection finds supporters among at least nine-tenths of its voters. Neither has it been affected to any great extent by the feeling of unrest which has prevailed in other parts of the country.

The overturn of two years ago, when the voters of the State elected a Democratic Governor, two Democratic Congressmen and a Legislature which sent Mayor Jones telegraphed to-night two Democratic Senators to Washington, was the result of almost purely local conditions. The prime cause was of course the liquor ques ion.

In the two lean years since Gov. Fernald was defeated factional feeling has disappeared and there is now no quarrel in the party over State matters. The liquor question, too, has ceased to be the issue that it was. Thus it will be seen that the decks were pretty well cleared for a Republican victory in September, when the Taft-Roosevelt quarrel burst into flame and swept the State like a wind

driven prairie fire

If any one had said in February that the
Republicans of Maine would in June send
delegates to the national convention
bound to support any other candidate
than the President, he would have been
regarded as at least very poorly informed.
No one doubted but there was a strong
Roosevelt sentiment in the State, but it
was disorganized and without leaders.
Matters were drifting along in this way.

With the Taft people confident and undisturbed, when Col. Frederick Hale,
son of the former Senator, and himself
ambitious politically, and Morrill N. Drew
if any one had said in February that the
may be—although they do not say so—
that they will not take the trouble to go
to the polls and vote in September.
The Republican candidate for Congress
in the First district is Asher C. Hinds,
who won by a narrow margin two years
ago. He is opposed by Michael T. O'Brien,
a young lawyer and orator, who got his
nomination in the face of the Democratic machine.

In the Second district Congressman
Daniel J. McGillicuddy is opposed by Col.
William B. Skelton, a former State bank
examiner and one of the shrewdess of the
odds seem to be rather in favor of Mr. McGillicuddys. Already the London concern through bound to support any other candidate

The Re-publicans of the State forgot their quarrel over the Presidency and participated in the primaries without regard to the dif-ferences which had arisen at the State convention. The nominations made were generally acceptable and nothing seemed to stand in the way of success in Sentember, when there came the best at September, when there came the bolt at Chicago and the calling of the Bull Moose

Chicago and the calling of the Bull Moose convention.

Again the party was divided and the nominees from Governor down trembled as they viewed the rent that had been made in the organization. Most of them saw in it the loss of all their hopes, but when the delegates got home from Chicago a strong effort was made to bring the two elements together on State matters and it has proved successful so far.

A conference was held in Augusta early in July of members of the State committee and Republican leaders all over the State including progressives and regulars, and only one sentiment was expressed, which

only one sentiment was expressed, which was that the party must forget November for the time and that every man must devote his energies to driving the present Democratic Administration from the State

House

But there lurks the unseen but ever present danger, which the party leaders feel keenly, that the Progressives may yet break loose. And there is still another trouble that threatens. There is quite an element in the State which thinks that the party and the party candidates should not ignore national matters, as they are striving to do, but that President Taft and his cause should cut just as much of
